

# KARIM ESSAM GABER AHMED

## Senior Flutter Developer

Abu Dhabi, UAE | +971 50 4626 400 | [dev.karime.gaber@gmail.com](mailto:dev.karime.gaber@gmail.com) | [LinkedIn](#) | [Portfolio](#)

### SUMMARY

Senior Flutter Developer with **4+ years of experience** engineering high-performance mobile ecosystems for market-leading organizations, notably **Araby AI** and **Awqaf UAE**. Expert in delivering full-lifecycle, scalable solutions for **enterprise-level** and **government-grade platforms**. Proven track record in transforming complex technical requirements into seamless, production-ready applications that drive user engagement and business value.

### PROFESSIONAL EXPERIENCE

#### Senior Flutter Developer | [MVP Apps](#), Abu Dhabi, UAE | 02/2025 – Present

##### Araby AI

- Scaled Araby AI platform to support over **1.1M+ users**.
- Integrated high-performance, real-time **AI chat** and **Image, video** and **audio** tools.
- Managed to boost app ratings from **2.8 stars** to **4.0 stars** in Google/Apple stores.
- Restructured codebase to follow the best practices.
- Developed subscription models and in-app purchases to drive revenue.
- Enhanced **app size** and **performance** with more than **50%**.
- Collaborated with cross-functional teams to deliver new features.

##### Awqaf UAE

- Engineered an **AI chatbot** for a **300K+ users** app to streamline government services.
- Built high-precision modules for real-time **Lunar tracking**.
- **Optimized UI/UX performance** to ensure reliability for government-grade users.
- Used **Clean Architecture** for high-traffic government-grade platforms.

#### Senior Flutter Developer | [Dashboards IT](#), Abu Dhabi, UAE | 05/2024 – 01/2025

- Led multi-app development from initial concept to successful store deployment.
- Integrated **Firebase Crashlytics** to reduce error rates and improve app stability.
- Collaborated in Agile teams to deliver scalable, backend-integrated solutions.
- Deployed mobile apps to the stores, ensuring compliance with platform guidelines.

#### Mobile Applications Developer | Freelancer, Remote | 06/2022 – 05/2023

- Delivered end-to-end Flutter projects for global clients, meeting all KPIs.
- Managed full-stack lifecycles including **requirements**, **design**, and **deployment**.
- Translated **client requirements** into **technical specs** and **functional prototypes**.
- Optimized cross-platform performance for both iOS and Android devices.

| • MVVM               | • Error Handling     | • Algorithms       | • Leader        |
| • Clean Architecture | • Testing            | • Problem Solving  | • Adaptive      |

## PROJECTS

### Araby AI App, [Android](#) | [iOS](#)

Developed a comprehensive, bilingual (Arabic/English) +1.1M users AI productivity suite. Engineered a multi-tool platform featuring an AI chatbot (ArabyGPT) with voice chat ability, Image generation tools, Video generation tools, AI-powered writing assistants for marketing and content, and voice generation tools to serve users in the MENA region.

### Awqaf UAE, [Android](#) | [iOS](#)

Developed the official digital gateway for UAE religious endowment services, automating over **100+ government functions** into a high-performance mobile experience. Engineered high-precision modules and advanced **AI chatbot interfaces** using **Clean Architecture** to maintain 100% reliability and government-grade security for a national user base exceeding **300K+ downloads** and **21K+ Ratings**.

### SoulSync

Developed a pioneering IoT mobile ecosystem for couples' smart rings, designed to bridge emotional distance through real-time physiological data. Engineered low-latency modules for **real-time heartbeat synchronization** and **haptic "Love Tap" signaling** between devices. Integrated an **AI Love Coach** and comprehensive wellness tracking (stress, sleep, and emotional patterns) to gamify and improve relationship health for a modern, tech-focused audience.

### Moodees, Customers: [Android](#) | [iOS](#) Salons: [Android](#) | [iOS](#)

Developed integrated Provider and Customer apps for beauty services, featuring Reservations, Payment processing, Wallet, Gift Cards, and Product purchases based on customer location.

### Martini, [Android](#) | [iOS](#)

Developed a Car Wash app, offering a seamless experience for scheduling professional car wash services, customizing washes, and tracking service progress for ultimate convenience and quality.

### Findley, [Android](#) | [iOS](#)

Developed a comprehensive platform for buying and selling luxury real estate, cars, electronics, phone numbers, and more, combining user-friendly features with advanced technology.

### Joy Time, Customers: [iOS](#) Partners: [iOS](#)

Developed an all-in-one app for booking yacht rentals, stays, safaris, and more. It offers a user-friendly interface, detailed listings, location-based search, and easy booking With reviews.

### Fabrio, Customers: [iOS](#)

Developed a user-friendly app that lets users schedule, track, and customize cleaning services at their convenience. With seamless service booking, it fits into users' busy schedules, offering professional cleaning at their fingertips.

### Design Factory

Developed a multiple user levels app, allowing customers to view services, book appointments, and track project progress. It also manages employee data, including salaries, wages, leave records, and financial matters. This ensures streamlined operations for both customers and employees.

## EDUCATION

### [October 6 University](#), Giza – Egypt | 10/2018 - 06/2022

Bachelor of Computer Science | GPA: 3.08 / 4.0 (Very good)

## LANGUAGES

- Arabic (Native Proficiency)
- English (Upper-Intermediate Proficiency)
